

drylin® carbon fibre | Product range

Carbon fibre hollow shaft

Order key

Type

Dimensions [mm]

CWM-12-300

Carbon fibre shaft

Metric

Outer Ø

Shaft length

- Material: CFK composite
- Roundness tolerance: $\pm 0.05\text{mm}$
- Diameter tolerance: -0.1mm
- Application temperature: max. $+80^{\circ}\text{C}$

Dimensions [mm]

Part No.	Design	Diameter	Max. length	Weight
		-0.1		[g]
CWM-12	Hollow shaft	12/9	2,000	70
CWM-16	Hollow shaft	16/12.5	2,000	120
CWM-20	Hollow shaft	20/16	2,000	170
CWM-30	Hollow shaft	30/26	2,000	270

drylin® linear technology –
products made of stainless steel

Temperature resistant up to $+250^{\circ}\text{C}$

Corrosion-free

Chemical resistance

Ready-to-install linear guides and modules

Lubrication and maintenance-free
